

OLIVEROS
Flavors

Rumba

When you mix Congas, Bongos and Claves, with beautiful Cuban and Afro Cuban Rhythms, you have the Rumba. Music to celebrate friendship and to celebrate life. As in Rio de Janeiro, the Cuban Carnival was a celebration of our traditions and our rich history. Oliveros Flavors will transport you to a night of carnival with conga lines and exotic costumes. By blending the essence of coconut milk with a splash of passion fruit together with the natural essence of sugar cane, you too will feel the rhythm of the night. La Rumba.

Mambo

The Mambo is a dance of passion and sensuality. Only Cuba could have created such a music, such a dance. Oliveros Flavors will transport you to the neighborhood cafes of Havana, where drinking rum, smoking cigars and dancing Mambo was not a pastime but a way of life. By blending vanilla beans with a mist of cherry extract and just a touch of tropical honey you too will feel the passion and sensuality of the Mambo.

Flavors

Cha Cha Cha

A trip to Havana excites the senses. The smell, the sites, the sounds. Let us take you to our birthplace, to the birthplace of cigars. Where the palm trees line the beaches and the moonlight witnesses the sensuality of the natives. Where the music never stops and faces are always dressed with smiles. By blending the essence of roasted cocoa beans, a mist of vanilla extract and a splash of Spanish red wine, Oliveros Flavors will transport you to the land of music, to the land of dreams, to the birthplace of the Cha Cha Cha.

Bolero

Steamy hot Havana nights. Passionate people with a love of their native music, dance and food. Close your eyes ... you're walking along the Malecón with a light breeze flowing through your guayabera, dancing a slow Bolero with a beautiful Cubana. Oliveros Flavors. Let us take you there with a perfect blend of Cuban Seed tobacco infused with rum fermented in the original Cuban tradition and enhanced by the flavors of the island, Mango, Papaya, Guava and the sweetness of sugar cane. A paradise of flavors.
